SKILLS

- **Languages:** Java, JavaScript (ES6+), Python, C++, C, PHP
- **Frameworks:** Node.js, ReactJs, Express.js, Tailwind CSS, Laravel
- **Tools/Platforms:** MySQL, MongoDB, Redis, HTML5, CSS3, REST APIs, JSON, Git, GitHub, Postman
- **Soft Skills:** Problem Solving, Team Collaboration, Communication, Adaptability

PROJECTS

Green Byte- E-Waste Facility Manager | [GitHub](#)

Jun' 26

- Developed a full-stack e-waste management platform enabling users to identify battery damage, access recycling guidance, and locate nearby recycling facilities.
 - Integrated Leaflet Maps with Laravel backend services to display recycling centers and provide location-based navigation for responsible e-waste disposal.
 - Built a responsive management system with secure data handling, improving recycling information accessibility and reducing manual facility management effort by 70%.
 - Implemented 6+ database tables, interactive mapping, and dynamic data management to deliver a scalable environmental sustainability solution.
- Tech Stack: ReactJs, Laravel, MySQL, Leaflet, REST APIs, JSON

Car Rental System| [GitHub](#)

Dec' 26

- Developed a full-stack MERN car rental platform featuring secure authentication, responsive user and admin dashboards, and seamless vehicle booking.
 - Built scalable REST APIs to manage vehicle listings, bookings, user authentication, and real-time availability using MongoDB.
 - Designed an intuitive admin panel for managing vehicles, pricing, availability, and bookings, improving rental operations and reducing manual management effort by 65%.
 - Integrated 15+ REST APIs, 5 MongoDB collections, and role-based access control to deliver a scalable and secure rental management solution.
- Tech Stack: React.js, Node.js, Express.js, MongoDB, REST APIs, JSON, Tailwind CSS

TRAINING

Java LeetCode and BootCamp |LPU| [Link](#)

Jul' 25

- Completed a Java Programming Bootcamp covering Core Java, OOP, Collections Framework, JDBC, Exception Handling and MySQL.
- Strengthened problem-solving and DSA skills by solving coding challenges on LeetCode using Java.
- Developed an Employee Management System using Java Swing, AWT, MySQL, JDBC and CRUD operations.
- Designed and integrated a MySQL database with Java, implementing efficient data management and SQL queries.

CERTIFICATES

- Cloud Computing Certificate. |NPTEL| [Link](#) Oct' 25
- Build Generative AI Apps and Solutions with No-Code Tools |Infosys| [Link](#) Aug' 25
- ChatGPT-4 Prompt Engineering: ChatGPT, Generative AI & LLM |Infosys | [Link](#) Aug' 25
- Packet Switching Networks and Algorithms |Coursera | [Link](#) Nov' 24
- Introduction to Basics of Finance |Simplilearn| [Link](#) Oct' 23

ACHIEVEMENTS

- Secured Block-Level Top Position in the National Science Olympiad, demonstrating strong aptitude in science.
- Solved 50+ LeetCode problems across diverse DSA topics, strengthening algorithmic thinking and problem-solving skills

EDUCATION

- **Lovely Professional University** Phagwara, Punjab
Bachelor of Technology - Computer Science and Engineering: **CGPA: 7.34** Aug' 23 – Present
- **Mehr Chand Mahajan DAV School** Baghni, Narpur
Intermediate (PCM): **Percentage: 71.2** Apr' 22 – Mar' 23
- **Future Foundation School** Narpur
Matriculation: **Percentage: 96** Apr' 20 – Mar' 21
